

THE HOPECORE PROJECT

Coding Languages — Python

Corey Schafer

Lang: **EN**

The gold standard for Python. Crystal-clear tutorials on OOP, Flask, Django, Pandas. Perfect depth for all levels.

[Python](#) | [Flask](#) | [Django](#) | [Pandas](#)

Tech With Tim

Lang: **EN**

Python basics to ML, game dev, and automation. Friendly beginner-to-advanced teaching style.

[Python](#) | [ML](#) | [Pygame](#)

Programming with Mosh

Lang: **EN**

High-quality Python, data structures, and OOP. Professional pacing, widely trusted by beginners.

[Python](#) | [OOP](#) | [Django](#)

Sentdex

Lang: **EN**

Python for data science, ML, finance automation. Practical, project-driven applied Python.

[Python](#) | [ML](#) | [Finance](#)

freeCodeCamp

Lang: **EN**

12-hour full Python courses, algorithms, and DS — entirely free. Best structured start-to-end resource.

[Python](#) | [DS](#) | [Algorithms](#)

Coding Languages — JavaScript & Web

Traversy Media

Lang: **EN**

HTML, CSS, JS, React, Node — the most comprehensive web dev channel. Clear crash courses for every framework.

[JS](#) | [React](#) | [Node](#) | [CSS](#)

Web Dev Simplified

Lang: **EN**

Explains the WHY behind JavaScript and React. Best for truly understanding modern JS.

[JS](#) | [React](#) | [CSS](#)

Fireship

Lang: **EN**

100-second concept explainers + deep dives. Covers JS, TypeScript, frameworks with humour and precision.

[JS](#) | [TypeScript](#) | [Firebase](#)

The Net Ninja

Lang: **EN**

Structured mini-course playlists — React, Vue, TypeScript, Firebase, Flutter. Like a bootcamp on demand.

[React](#) | [Vue](#) | [TypeScript](#) | [Flutter](#)

JavaScript Mastery

Lang: **EN**

Full-stack JS project builds — Next.js, React, Three.js. Best for learning by building real apps.

[Next.js](#) | [React](#) | [Three.js](#)

Coding Languages — Java, C++, Rust & Others

Coding with John

Lang: **EN**

Clear Java tutorials from basics to Spring Boot. Perfect pacing for beginners and intermediate learners.

[Java](#) | [Spring Boot](#) | [OOP](#)

Derek Banas

Lang: **EN**

'Learn X in Y minutes' series — Java, C++, Python, Go, Kotlin. Best single-channel multi-language reference.

[Java](#) | [C++](#) | [Python](#) | [Go](#)

The Cherno

Lang: **EN**

C++ from a game developer's perspective. Performance-critical, professional-grade C++ content.

[C++](#) | [OpenGL](#) | [Game Dev](#)

Let's Get Rusty

Lang: **EN**

Best Rust channel on YouTube. Follows the official Rust book, beginner-friendly and thorough.

[Rust](#)

CodeWithHarry

Lang: **HI/EN**

Python, Java, C, Web Dev in Hindi — covers every major language. India's most trusted coding teacher.

[Python](#) | [Java](#) | [C](#) | [Web](#)

DSA — Data Structures & Algorithms

Abdul Bari

Lang: **EN**

The best DSA theorist on YouTube. Every algorithm with mathematical depth, hand-drawn diagrams, and exceptional clarity.

[Algorithms](#) | [Trees](#) | [Graphs](#) | [DP](#)

NeetCode

Lang: **EN**

LeetCode problems broken into visual steps. Best channel for interview prep and coding round practice.

[LeetCode](#) | [DP](#) | [Graphs](#) | [Patterns](#)

takeUforward (Striver)

Lang: **EN/HI**

DSA A-to-Z roadmap with problem sheets. Striver's SDE sheet is used by thousands of students for placements.

[DSA](#) | [CP](#) | [Placements](#)

mycodeschool	Lang: EN
Foundational DSA with polished animations. Older but still the best resource for core concepts.	
<i>Linked Lists Trees Sorting</i>	

William Fiset	Lang: EN
Advanced DSA — graph algorithms, network flow, segment trees. Best for competitive programming depth.	
<i>Graphs DP Competitive Prog.</i>	

Back To Back SWE	Lang: EN
FAANG interview prep with clear visual walkthroughs of problems. Great for placement preparation.	
<i>Interviews DP Trees</i>	

Cybersecurity & Ethical Hacking

The Cyber Mentor (TCM)	Lang: EN
Ethical hacking, penetration testing — step-by-step demos of real tools. Best structured hacking course on YouTube.	
<i>PenTest Kali Linux OSCP</i>	

NetworkChuck	Lang: EN
Cybersecurity + networking for beginners. Makes Wireshark, Kali Linux, VMs and CCNA genuinely fun.	
<i>Hacking Networking CCNA</i>	

John Hammond	Lang: EN
Advanced CTFs, malware analysis, real security research. Ideal for intermediate-to-expert level learners.	
<i>CTF Malware Scripting</i>	

IppSec	Lang: EN
Hack The Box machine walkthroughs — best channel for OSCP prep and real-world pentesting skills.	
<i>HackTheBox OSCP CTF</i>	

LiveOverflow	Lang: EN
Exploitation fundamentals, buffer overflows, reverse engineering. Best for binary and web security depth.	
<i>Exploitation CTF Web Security</i>	

David Bombal	Lang: EN
Networking, Wireshark, ethical hacking and certifications. Bridges networking and cybersecurity perfectly.	
<i>CCNA Wireshark Hacking</i>	

Cloud Computing — AWS / Azure / GCP

AWS Training (Official)	Lang: EN
--------------------------------	-----------------

Official AWS channel — services, architecture, serverless. Best for authoritative and up-to-date AWS content. AWS Lambda S3 EC2	
Stephane Maarek AWS certifications (SAA, DVA, SysOps) — best-rated AWS instructor. YouTube previews are extremely valuable. AWS Solutions Arch Certs	Lang: EN
John Savill (Azure) The #1 Azure resource on YouTube. AZ-104, AZ-900, Azure architecture explained in incredible depth. Azure AZ-104 DevOps	Lang: EN
TechWorld with Nana Docker, Kubernetes, CI/CD, DevOps — most clearly explained DevOps tutorials on YouTube. Very popular. Docker K8s CI/CD DevOps	Lang: EN
KodeKloud Kubernetes, Helm, Terraform, Docker — structured hands-on cloud/DevOps training. CKA exam focused. K8s Terraform Helm CKA	Lang: EN
Google Cloud (Official) Official GCP channel — BigQuery, GKE, Cloud Run — best authoritative source for GCP tutorials. GCP BigQuery GKE	Lang: EN
NetworkChuck Cloud basics, AWS, networking labs — makes cloud concepts beginner-friendly with hands-on demos. AWS Networking Linux	Lang: EN
DevOps & Infrastructure as Code	
TechWorld with Nana Docker, Kubernetes, Jenkins, GitLab CI — the most complete and clear DevOps tutorial channel on YouTube. Docker K8s CI/CD Jenkins	Lang: EN
That DevOps Guy Kubernetes, Argo CD, Helm — production-grade DevOps patterns. Great for real-world cloud-native work. K8s ArgoCD Helm	Lang: EN
Abhishek Veeramalla AWS Zero to Hero series, DevOps tools — very popular for structured free DevOps learning from scratch. AWS Docker Terraform	Lang: EN
freeCodeCamp DevOps	Lang: EN

Full DevOps courses — Linux, Docker, K8s, CI/CD pipelines — all completely free and long-form.

Linux | Docker | CI/CD

DSA: Abdul Bari + NeetCode + Striver | Cyber: The Cyber Mentor + NetworkChuck | Cloud: Stephane Maarek + John Savill + TechWorld Nana
